This Business Air News Handbook Index is one of a series of daily-updated documents available to visitors to the BAN web site.

For a full list of the aircraft currently published please visit the www.businessairnews home page. Subscriptions are available to individuals and to organisations wishing to provide site-wide access for all staff.

Note that the information contained in this report has been compiled from a variety of sources, and has not necessarily been confirmed by the aircraft manufacturer or specific supplier in every case. Please refer to our terms and conditions of use on the last page of this report.

Consult our library free-of-charge

We produce more than 25 Index reports on individual business aircraft types, and update them every day.

To download these free-of-charge simply log in at www.businessairnews.com, search for the aircraft type and click on the cover.

Sponsor one of these Index reports to receive these exclusive benefits:

- Your company name on the front cover
- Full page advertisement on page two
- Your sponsored report made available to all-comers without login
- Prominent name and web links alongside the download on the aircraft's main page
- Your advertising message included in an email to all owners of and suppliers to this aircraft type worldwide
- Exclusivity: Each report has just one sponsor

Contact Brad Wright at brad@businessairnews.com for details.

Airbus Helicopters H135

The H135 is a light utility twin engine helicopter now produced by Airbus Helicopters. It is capable of IFR flight and is outfitted with a digital automatic flight control system.

Development started with the Bo 108 in the 1970s, prior to the formation of Eurocopter under Messerschmitt-Bölkow-Blohm, in partnership with Aérospatiale. The Bo 108 was initially intended as a technology demonstrator, with FADEC, a hingeless main rotor, a new transmission and an aerodynamically streamlined design.

The first prototype made its first flight on 17 October, 1988 powered by two Allison 250-C20R/1 engines. A second followed on 5 June, 1991, this time with two Turbomeca TM319-1B Arrius engines. Both technology demonstrators flew with conventional tail rotors.

In the late 1990s, the Fenestron tail rotor system was added along with an advanced rigid main rotor, composite materials and resonance isolation systems. The company pursued a full certification programme, resulting in the production of two prototypes and, at the same time, a new designation of EC135 under Eurocopter.

It was then decided to offer the choice of Turbomeca Arrius 2B or P&WC PW206B engines. Two prototypes were built in 1994 powered by either engine, and both were used on subsequent production aircraft; the choice of engine giving either a T or a P in the variant name.

In January 1995, the EC135 made its first public appearance at the Heli-Expo convention at Las Vegas. European JAA certification was achieved on 16 June, 1996 with FAA approval following on 31 July.

On 2 December, 1999 the EC135 was granted single-pilot IFR certification by Germany's LBA, followed by the UK's CAA in December 2000. The first two production aircraft appeared on 31 July, 1996.

2002 saw the first flight of the EC135 active control technology demonstrator/flying helicopter simulator (ACT/FHS), a research aircraft designed to test fibre optic-based flight control systems.

EC135s were able to be assembled in Romania from November 2003, with other agreements for assembly lines in Spain and Switzerland. In 2011, Eurocopter formalised a license manufacturing agreement with Zhong-Ou International Group to produce a luxury EC135 version in Zhejiang Province, China, and in October 2015 Airbus Helicopters agreed to allow Ecopark to establish a final assembly line in Qingdao Province.

The aircraft was redesignated H135 on 3 March, 2015.

In January 2016, it was announced that the Ural Works of Civil Aviation, a

This Index is just the tip of the iceberg

Over 400 aircraft types are analysed on the Business Air News Handbook website, and in our printed annual Handbooks

Plus there is comprehensive coverage of over 9,500 airports worldwide, and over 8,000 FBOs and handlers. There is a full calendar of important events, our excellent charter trip planner, and everything is fully cross-referenced and indexed for simple and effective reference.

A subscription for full and unlimited access is just £225.

Airbus Helicopters H135

Typical passenger capacity: 6

Range: 252 - 294nm

Cruise speed: 127ktas.

Cabin height: 4.08ft

Cabin width: 4.75ft

Active fleet worldwide: 1272

Available for charter worldwide: 272

Typical price: Pre-owned values: \$400,000 - \$6,100,000. New cost: \$6,100,000.

Production dates: 1997 - current.

Includes EC135 P1, P2, T1 and T2. Known as H135 since March 2015

Maintenance index

Here we list only those companies that provide maintenance for the Airbus Helicopters H135 and/or its engines. The list is sorted alphabetically by country and by company name, and provides contact telephone and web address details. Much more information is available on the web site at www.businessairnews.com, including comprehensive data about the other aircraft types for which each company provides maintenance. Please note that the data is gathered from a variety of sources and not necessarily confirmed by the companies listed.

BUSINESS AIR NEWS

HANDBOOK INDEX

SUBSCRIBING

This report is one of a series of indexes about specific aircraft types, and the companies that operate and support them all around the world, derived from data in the online Business Air News Handbook at www.businessairnews.com. It is updated every day.

Web site users can access these PDF reports free of charge simply by logging in. Those without login details can request access by contacting Janet Edwards on janet@businessairnews.com, or by completing the form at www.businessairnews.com/mag_subsfree.html

These reports are limited to just a few specific aircraft types, whereas the Business Air News Handbook on the web has data for around 400. Users can access a few pages a month to sample the data, and can take out a paid subscription for full and unlimited access.

UPDATING

To advise us of additions, updates or corrections to the data in this report, please contact Stephen Campbell on **+44 (0)1279 714512** or stephen@businessairnews.com.

ADVERTISING

Companies included in the report who have taken out paid advertising on the Business Air News Handbook web site, are automatically highlighted in the report.

Enhanced entry advertising starts at just £210 for a whole year.

Sponsorship of these reports is also available and includes:

- Name on front cover
- Full page advertisement on page 2
- Sponsored report made available to all-comers without login
- Prominent name and web links alongside the download on the aircraft's main page
- Advertising message included in our email to all owners of and suppliers to this aircraft
- One exclusive sponsor

Terms and conditions of use

The Business Air News report ("Document") is a publication developed by Stansted News Limited ("SNL"). By downloading and reading the document you are deemed to have accepted these terms and conditions.

USE OF CONTENT: The services and information provided in this Document are for your personal, non commercial use only.

ACCURACY OF INFORMATION: Neither SNL nor any of its data providers or affiliates make any warranties expressed or implied, as to the accuracy, adequacy, quality or fitness for any particular purpose of the information or the services for a particular purpose or use and all such warranties are expressly excluded to the fullest extent that such warranties may be excluded by law.

INDEMNITY: You irrevocably indemnify SNL and its data providers and affiliates from and against any and all losses,

damages and costs suffered or incurred by SNL, or any data providers or affiliates of whatsoever nature arising out of or in connection with your use, provision or distribution of information of any part of this Document or any part or otherwise howsoever arising in relation to any breach of these terms and conditions by you.

HYPERTEXT LINKS: This Document provides hypertext links to sites on the Internet which are operated by other people. SNL takes no responsibility for and gives no warranties, guarantees or representations in respect of linked sites.

INTELLECTUAL PROPERTY: All intellectual property rights (including copyright, patents, trade marks) whether registered or not in this Document shall remain the property of SNL and no customer or other person shall, or shall attempt to obtain any title to such rights. Information appearing in this Document is the copyright of SNL and must not be reproduced in any medium without

licence. Users are permitted to copy some material for their personal use as private individuals only. Users must not republish any part of the data either on a website, or in any other medium, print, electronic or otherwise, or as part of any commercial service without the prior written permission of SNL.

ADVERTISING AND SPONSORSHIP: Parts of this Document contain advertising and sponsorship. Advertisers and sponsors are responsible for ensuring that material submitted for inclusion in this Document complies with all legal and regulatory requirements and does not contain any material which is objectionable including, without limit, information which is defamatory, obscene, threatening or untrue. SNL will not be responsible for any such material or any error or inaccuracy in advertising material.

LIABILITY: Due to the number of sources from which this Document obtains

content and the nature of electronic distribution via the world wide web neither SNL nor any of its data providers nor affiliates shall have any liability (whether in contract or tort) for any losses, costs or damages resulting from or related to use of or inability to use any information contained in this Document or the provision of this Document to the fullest extent to which such liability may be excluded or avoided by law and in no event shall SNL be liable to you for lost profits or for indirect, incidental, special, punitive or consequential damages arising out of or in relation to the provision of information on this Document. SNL makes no warranty that this Document is free from infection by viruses or anything else that has contaminating or destructive properties.

JURISDICTION: These terms and conditions will be governed by the laws of England and Wales and the parties agree to submit to the exclusive jurisdiction of the English Courts.
